

QUICK Jump

QUICKJUMP FREE FALL DEVICE

QUICKjump gives a rider the feeling of a true free fall experience, while comfortably controlling their descent

The QUICKjump family of free fall devices provide an exciting element with high throughput and low operational costs to operators of amusement parks, family entertainment centers, adventure parks, shopping centers, resorts, ropes courses and more.

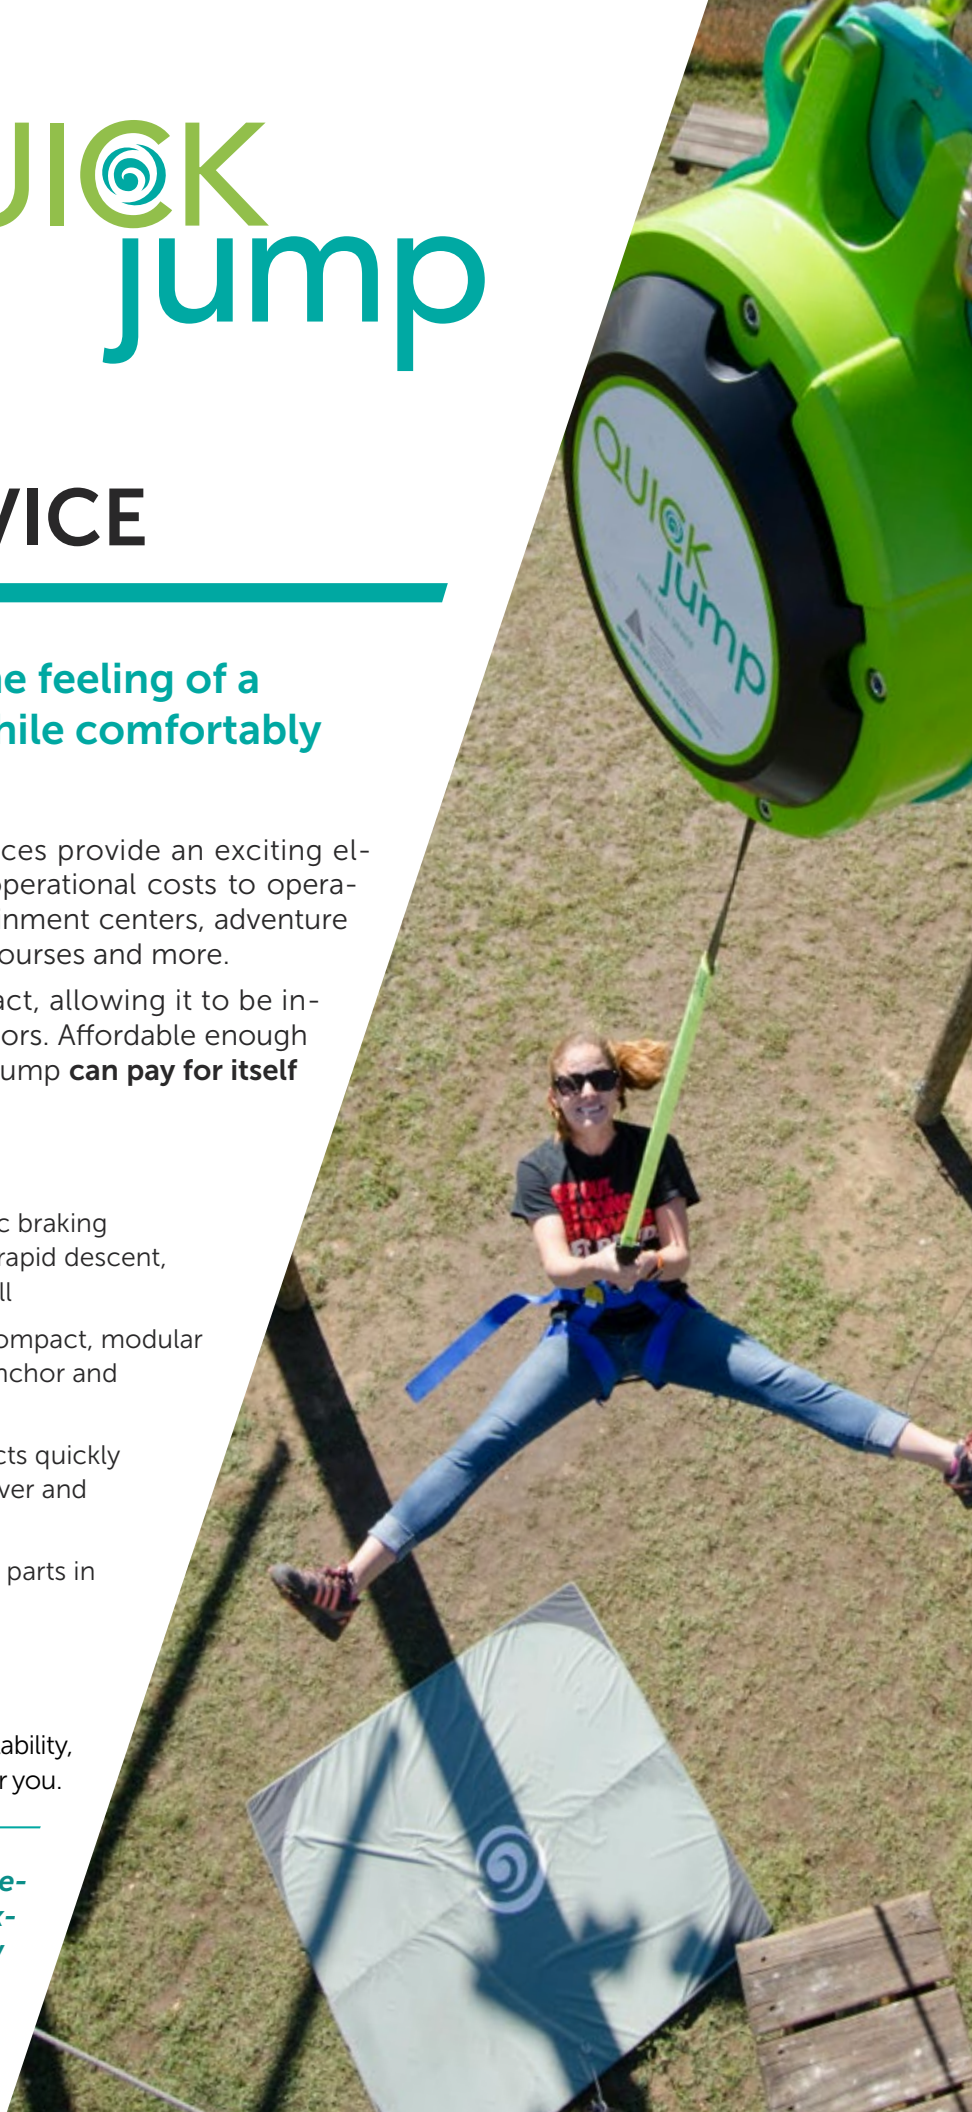

The QUICKjump is modular and compact, allowing it to be installed in almost any location, even indoors. Affordable enough for even the smallest facility, the QUICKjump **can pay for itself in a matter of a few hours of operation.**

KEY BENEFITS

- **True free fall feeling** with our magnetic braking technology adapted to allow an initial rapid descent, giving the rider a stomach-flipping thrill
- **Simple to install** and relocate with a compact, modular unit designed to be hung from a top anchor and moved easily
- **High throughput** with a line that retracts quickly and smoothly, allowing for rapid turnover and providing a high return on investment
- **High reliability** with no sacrificial wear parts in the braking core
- **Minimal maintenance** and low cost of ownership
